## INSTRUCTIONS

The Probationary Agent Monthly Evaluation Report, will be completed each month during the probationary period on all agents. The evaluation should be made by the appropriate supervisor and forwarded to the field office commander/SAC. The field office commander/SAC will add his/her comments and counsel the probationary agent.

a. Part I—Evaluation of Personal Traits. Items 4–23. Care must be taken to make a fair rating. The probationary agent will be rated on each of the personal traits which are listed in AR 195–3 and on the appendixes study and self-improvement. Significant strengths and weaknesses will be explained in Part II, Item 30 or 31. The evaluation code shown in the key will be used.

b. Part II—Performance Evaluation. Items 25–29. Determination of the appropriate rating for each of the test areas requires an in-depth evaluation of probationary agent's on-the-job performance and/or the evaluation of results derived from hypothetical test situations. The rating will reflect both the ability to perform basic investigative tasks and his/her understanding and application of special techniques and considerations outlined in each test area. The evaluation code used for Part I will apply. Superior achievements in the performance of investigative tasks should be noted in item 29.

c. Item 30. The purpose of this section is to provide a summary of how the evaluation was made and to explain those ratings which need supporting remarks. When a rating is based on evaluation of job performance in connection with an actual investigative assignment, reference will be made to the CID ROI number.

d. Item 31. It is the responsibility of the field office commander/SAC to insure that the evaluation is accurate and objective.
